PROFILE

Enterprise software developer experienced in modular services, asynchronous messaging, and automated verification.

CORE CAPABILITIES

Java • Spring Boot • Microservices • Kafka • JUnit

PROFESSIONAL EXPERIENCE

Software Developer — SilverOak Digital (Fictional) | 2020–2024

• Implemented JVM-based applications in Java using the Spring Boot framework.

• Separated functionality into independently deployable microservices.

• Integrated event-stream messaging through Apache Kafka and wrote automated checks with JUnit.

EDUCATION

Master of Computer Applications, Fictional Institute of Software Studies, 2018–2020

SELECTED CONTRIBUTIONS

Worked with cross-functional colleagues, documented delivery decisions, and supported iterative releases.
